Case: 32406 Date: 3/24/06 Time: 11:30pm

Investigators: Rich, Kim and Graham

Location: Old City Gates (St. Augustine Fl.)

Weather: Very cold and Windy

Legend / History of Place

As the story goes, at the time an epidemic of Yellow Fever was going around and a little girl about 13 or 14 years old wearing a white dress was found dead by the City Gates. No one claimed her. But sometimes around 2:00 or 3:00 in the morning you may see her dancing on the Old City Gates.

Investigator Report

We got to the Old City Gates at 11:30pm that night I was using the thermometer point at the gates and I was getting very unsteady readings on the meter it was going to (-10) to (-40) When I took some pictures there were about 3 to 4 flashes my camera only flash one time. We pointed the thermometer at the rest of the gate like the wall there and around town and the readings look good but pointed at the gates the reading was very unsteady again. We did find out about the little girl if you look at the photo of the gate on the left side at the bottom of the gate wall you will see a stain on the wall if you look at the stain a little away from it looks like the little girl there on the gate if you look at the picture name the little girl you may see what I see.
