Legend / History of Place

My friend John does the ghost tour in Fort Lauderdale. The tour takes approximately 60 to 90 minutes. The tour takes you on a trip around downtown Fort Lauderdale. He tell you about the historical haunting of downtown. It is a very good tour I recommend it.

Investigator Report

We found a lot of orbs around the Stranahan House where Frank Stranahan had drowned / Died (suicide) At the Stranahan House we were only allowed on the outside of the house that night. We did found some things around the railroad tracks and some sweet smells but over all we did not find anything that we can say it is haunted.
